# Installation Package

[Download](#) 

[ZIP]

Setup  
**Installation file**

**Installs AMD Navigator on  
system disk.**

Add-on  
**Kiosk Mode**

**Runs AMD Navigator in  
single-app mode.**

Local (non-Administrator) account  
Task Manager disabled  
Password Manager disabled  
Windows access disabled

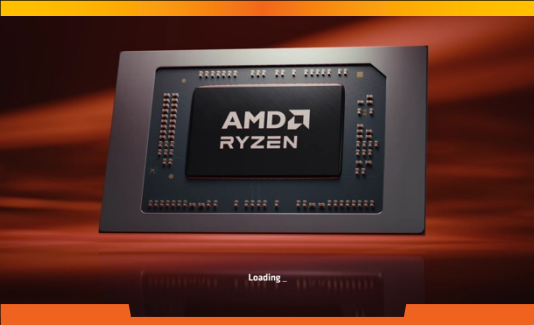

Add-on  
**Secure Windows Mode**

**Runs AMD Navigator at  
startup in secure mode.**

Local (non-Administrator) account  
Task Manager disabled  
Password Manager disabled  
Windows access enabled

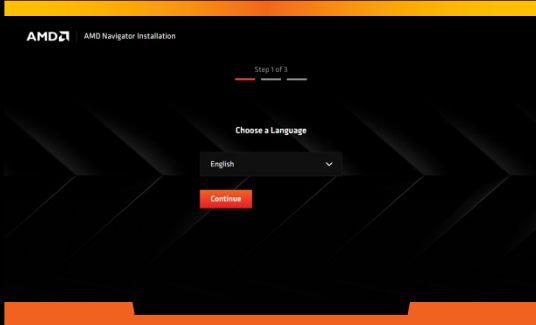

Use latest build, uninstall old version.  
Run as admin, disable antivirus for Kiosk and Secure modes (uses Windows BAT executables).

# How to Install — Software

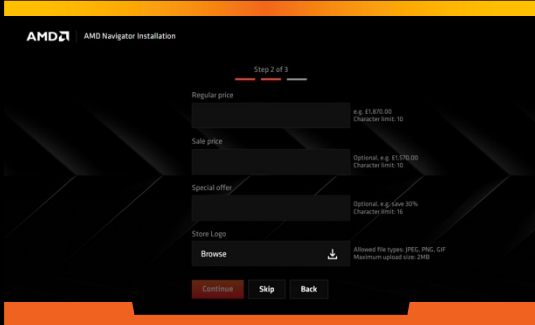

## Install

1. Set a password for the Windows Administrator account.
2. Run the installer and accept the license.
3. Click Install to set up AMD Navigator.
4. Open the app, wait for loading, and start.

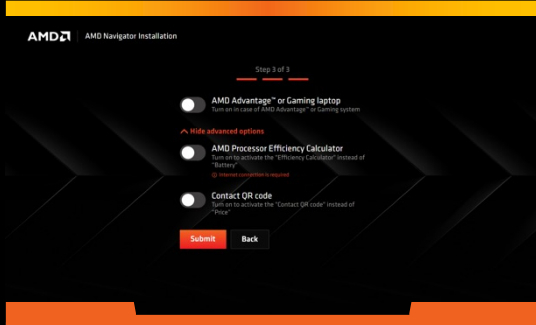

## Step 1

1. Select your language.
2. Click Continue.

## Step 2

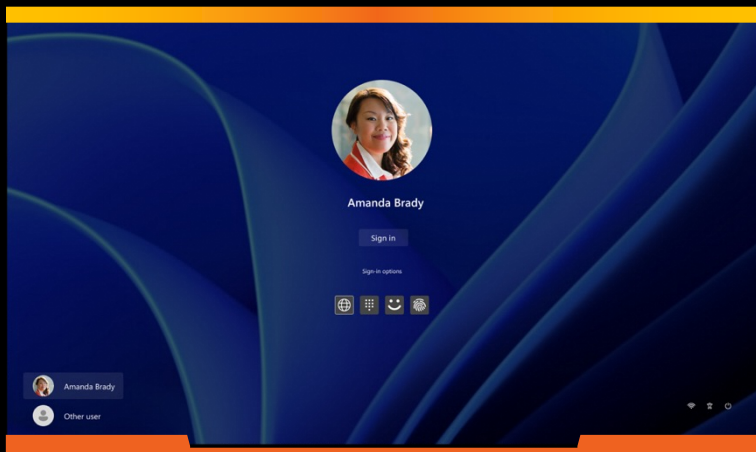

1. Complete fields using prompts.
2. Optionally add a Store Logo.

## Step 3

1. Enable AMD Advantage mode on gaming systems.
2. AMD Processor Efficiency Calculator opens pecalculator.amd.com instead of Battery page (internet required).
3. Contact QR instead of Price.

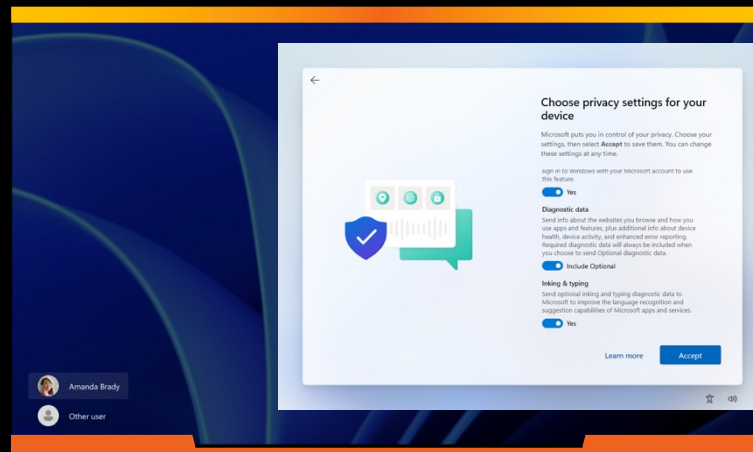

# How to Install — Kiosk & Secure Windows

## 1-Click Kiosk Mode

1. Disable antivirus for Kiosk mode (uses Windows BAT executables).
2. Install AMD Navigator as administrator, accept license, click Install, uncheck Launch.
3. Run Add-ons/AMD\_Navigator\_Kiosk.exe.
4. Log in to the **AMD-NAVIGATOR-KIOSK** account with one-time password “amd”.
5. Wait for the initial loading to complete – no action required.

To use PC normally, press CTRL+ALT+DEL, log out from Navigator user, and log in as Administrator.

## 2-Clicks Secure Windows Mode

1. Disable antivirus for Secure Windows mode (uses Windows BAT executables).
2. Install AMD Navigator as administrator, accept license, click Install, uncheck Launch.
3. Run Add-ons/AMD\_Navigator\_Secure\_Windows.exe.
4. Log in to the **AMD-NAVIGATOR-WIN** account with one-time password “amd”.
5. Wait for the initial loading to complete – then click Accept on the privacy screen.

To use PC normally, press CTRL+ALT+DEL, log out from Navigator user, and log in as Administrator.

# Layouts

Classic

1. Click a section to open its page.
2. Click the “\_” icon (top right) to minimize the app.

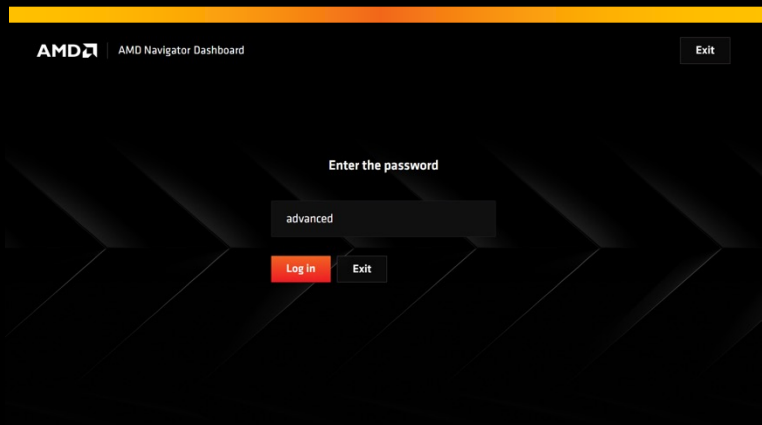

AMD Advantage (Gaming)

1. Turn on for AMD Advantage™ or Gaming systems.
2. Click a section to open its page.
3. Click the “\_” icon (top right) to minimize the app.

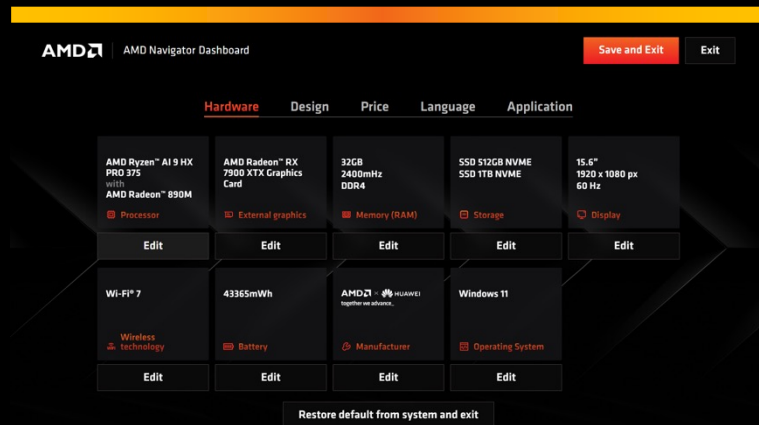

# Admin Dashboard

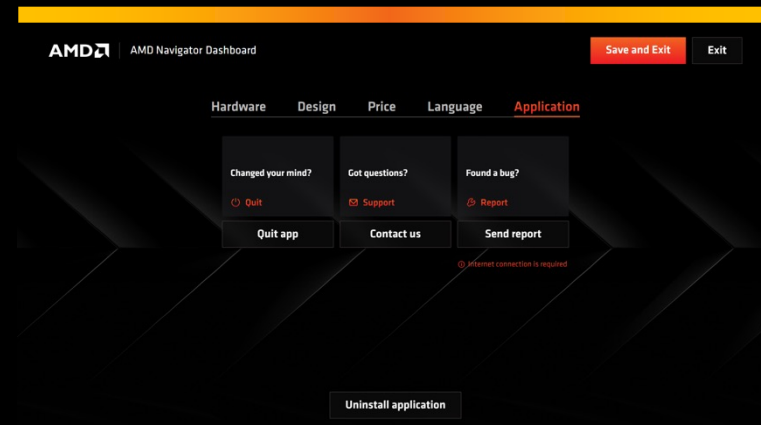

## Login

1. Press ALT+DEL to open Admin Dashboard.
2. Enter password **“advanced”**.
3. Click Log in.

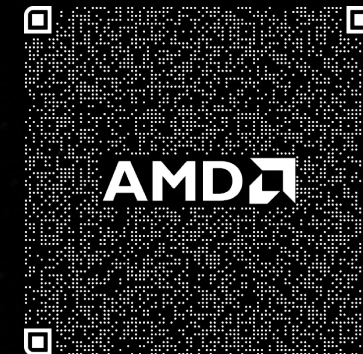

## Sections

1. Available options: Hardware, Design, Price, Language, Application
2. Use Edit to change hardware settings or Restore to load from system.
3. Complete fields using prompts.
4. Click Save and Exit to apply.
5. Click Exit to discard.

## Application

1. Quit app → Close the app.
2. Contact Us → Scan QR to send email.
3. Send Report → Submit log with name and email.
4. Uninstall app → Remove the app.
